- Click on the SVEC Energy Calculator button
- Try out a few of the energy saving tools
- Learn to save energy & money
- Register for the monthly drawing through Sept 30

**For a chance to win  
a \$50 credit on your SVEC bill**

For many households summer electric bills are among the highest of the year. Since you only pay for the electricity you use, the only way to lower your electric bill is to use less electricity.

Learn how you can reduce your family's energy use by visiting our web site [www.svalleyec.com](http://www.svalleyec.com) and trying out some of our energy calculators. They will give you an idea of how much energy the appliances in your home use and how much it is costing you.

The site will also give you ideas on how to adjust your family's energy use habits so that you do not waste electricity.

One of the features on the Energy Calculator site is the FREE TVA home energy survey that evaluates your home's energy efficiency and your family's energy use habits then gives you

back a report with energy saving recommendations based on your answers. TVA and SVEC will mail you a FREE energy conservation kit just for completing the survey.

In addition, through September 30, when you visit the site you may register for a drawing to be held for a \$50 credit on your electric bill. We will draw one winner at the end of August and one winner at the end of September so visit [www.svalleyec.com](http://www.svalleyec.com) now for a chance at a \$50 credit.

Don't have internet access? Check with your local public library for free internet access. Or you can call or stop by your local office to have a home energy evaluation mailed to you and pick up the free booklet 101 Low-Cost/No-Cost Home Energy-Saving Measures.

## Free energy conservation kits

**For a limited time, TVA will mail an energy conservation kit to you upon completing a do-it-yourself energy audit.** Visit [www.energyright.com](http://www.energyright.com) or [www.svalleyec.com](http://www.svalleyec.com) to complete the survey online or request a mail survey; or call your local SVEC office to have a survey mailed to you.

## SVEC/TVA

# In Home Energy Evaluation

solutions **TVA**

# \$500

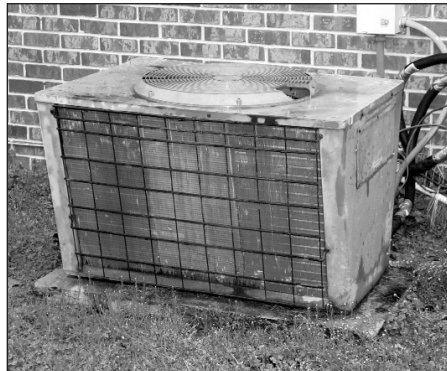

If you are ready to make energy efficiency improvements to your home, contact SVEC to schedule an In-Home Energy Evaluation. For only \$150 our energy evaluator will give your home a professional evaluation. You will get the fee back if you spend at least \$150 on recommended improvements. If you spend more than \$150 on qualified improvements you could be eligible for up to an additional \$500 rebate and a 6% interest loan to pay for the improvements. Call your local SVEC office for details and start saving energy and money!

## Are your electric bills high and your home hot?

### Maybe it's time for a new heating and cooling system

If your current HVAC system is "over the hill" and not performing as well as it should, it may be time to replace it with a high efficiency heat pump that will keep you comfortable all year long while also helping to keep your electric bills in line.

Now is a great time to consider making the switch. Buying a new high-efficiency electric heat pump is

If your old HVAC system is looking like this 27 year-old unit and is not keeping your home comfortable, it's time for a change.

easier than ever. In fact, we can even lend you the money. With no money down, and low 6% APR fixed rate, eligible members can have the low monthly payments conveniently included on their regular monthly electric bill.

Visit [www.energyright.com](http://www.energyright.com) or call your local SVEC office for details on the heat pump financing program and the new In-Home Energy Evaluation program that carries financing and rebate options for qualified participants.
